

Marunouchi BRICK SQUARE
Shopping zone in Marunouchi Park Building

Mitsubishi Estate is proud to announce the grand opening of the highly anticipated Marunouchi BRICK SQUARE, the city’s newest commercial shopping zone located on the first basement floor through the fourth floor of the Marunouchi Park Building.

Embracing the concepts of “comfort” , the Marunouchi BRICK SQUARE offers new means of relaxation with unique restaurants and alfresco cafe overlooking a lush green square “Ichigokan Square” , which complements a classic red brick backdrop provided by the newly restored, historic Mitsubishi Ichigokan. The Marunouchi BRICK SQUARE will host a number of fine retail boutiques and world-renowned restaurants—many being introduced for the first time in Tokyo and Japan. A total of 36 shops and restaurants include the confectionary shop *Cacao Sampaka* from Barcelona, Spain, Kyoto-style cuisine and ochaya bar *Mamemaru*, as well as the latest Tokyo installment by legendary French Chef Joël Robuchon.

The Marunouchi BRICK SQUARE is located as the central gateway on Naka-dori Ave, connecting Marunouchi and Yurakucho, which will intensify the area’s energy and vitality into Otemachi and beyond.

About Marunouchi Redevelopment’s Second Stage

The First Stage of Mitsubishi Estate’s Marunouchi Redevelopment Project began in 1998 and ended in 2007, successfully bringing vitality and growth into the area. The Second Stage launched in 2008, and includes a ten-year plan continuing the same concept of the First Stage, while expanding the revitalization throughout the Marunouchi, Otemachi and Yurakucho areas. Mitsubishi Estate will continue the redevelopment of Marunouchi in alignment with its goal to create the most exciting and interactive city in the world, while re-establishing Tokyo as the center of international commerce and culture that is founded on tradition.
